The Huddle Concept

The foundational pieces of cases examined in retrospect allow a much-needed review of what is working, what the outcomes for children are, and what the best practices for CPS system professionals are.

But ...we need to learn from our past, and not keep making the same mistakes.

Who Attends the Huddle?

If you are a practitioner, working with children in child protection, from any sector then this special training is for you. ISPCAN brings together the experts from each discipline, various regions and marries research with practice so we can all learn.

Year 1 Case: Child Sexual Abuse

Multigenerational child sexual abuse, in the context of culture, family and systems of care will be explored. How the medical, mental health, and justice systems interact to protect and heal the child will be deeply examined. From the eyes of the child, Sasha J Neulinger, we will hear the case, as it unfolds using his home movies as he recreates and tells his story.

Special Guest: Sasha J Neulinger
